Younes Bachir, actor and collaborator from La Fura dels Baus presents

“Andante”

A 10 day workshop in which Younes will immerse the participants in a unique theatrical language and process - culminating in a public performance.

The workshop, Andante began last year in Cuba, and is the result of Younes's 15 year's experience from working inside La Fura dels Baus. It is an investigation into contemporary European performance language, in which Younes will expose the participating artists to his personal experience with the company of the different dramatic, plastic and spatial skills that are involved in the realization of the performances.

Younes has been collaborating with the Spanish company for fifteen years, during which time he has been part of the process of the specific 'Furan' performance language. This language is based in the synergy between disciplines and the coexistence of different techniques and perspectives to theatre.
